

**Experience induction.**  
**Faster, safer, more control.**  
**The future of cooking.**

**Induction Cooktop Loaner Program**  
for residential and business customers

# Borrow an induction cooktop for your home or business at **no cost**.

Induction is an advanced cooking technology that creates a magnetic field to directly heat the cookware. Induction is more energy efficient than traditional gas burners or electric resistance elements.

## Experience the benefits of induction for a two-week loan period at no cost to you.

Induction is a powerful, climate-friendly cooking technology providing:

- Faster heating
- Precise temperature control
- Built-in safety features
- Increased kitchen comfort
- Easier cleaning
